Microdermabrasion can help improve the skin appearance by reducing fine lines, early sun damage and mild, shallow acne marks.

MICRO SKIN NEEDLING

EDS rejuvenate treatment is an electronic, micro-skin-needling procedure that stimulates your skin to naturally generate and repair itself. As part of this stimulation new collagen can be formed, new cells generated and the structure of the dermis, enhanced.

This natural process takes time, so it can take up to 6 weeks before you see significant results, but you can expect to see an improvement in your skin's texture and tone and the results you see over time will look natural and be long lasting It can be used as a key treatment in rejuvenating skin with the following conditions:

- Acne scars
- Photo-damaged and ageing skin
- Facial and décolleté lines and wrinkles
- Stretch marks

£199 per treatment or 3 treatments for £549

Endocare growth factor facial	£129
-------------------------------------	------

MICROBLADING

1st treatment	£250
---------------------	------

this includes a top up treatment 6-8 weeks later.
